

A LEGO minifigure with a tan body and a tan helmet stands in the foreground, looking up in shock. A speech bubble next to it says "Aaaahhh!". In the center, a large, translucent orange, crystalline structure erupts from the sand. The structure has a jagged, lightning-like top and several curved, tentacle-like base. Above the structure, the word "BOOM" is written in large, stylized, red and yellow letters. To the left, a vertical column of the letter "E" is repeated several times. In the background, a sign reads "West Oasis".
