

Who the devil are you Sir? Stand to one side!

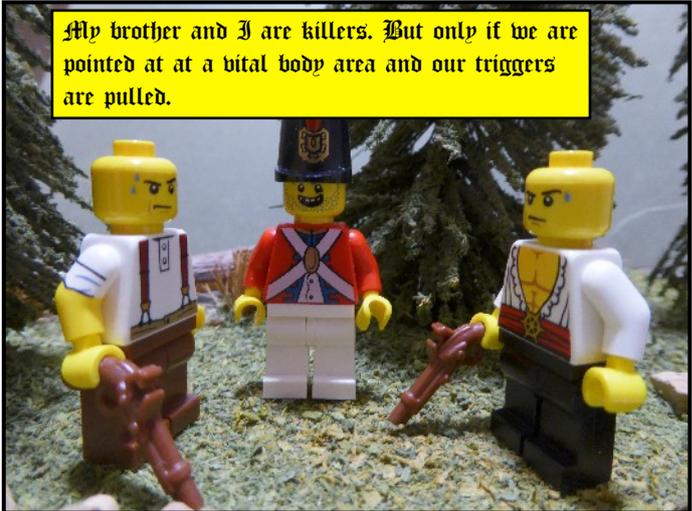

Sorry to interrupt gentlemen, but **duelling** is now **illegal**. Put up your guns.

“Duelling doesn’t end cleanly. Many a time a bullet does terrible damage to a limb, which results in gangrene setting in.

Followed by amputation. If you want to settle differences, trying boxing with gloves instead”.

My brother and I are killers. But only if we are pointed at at a vital body area and our triggers are pulled.
