

Williams ordered the two soldiers to bring all the scientists for interrogation. Then he outlined his plans.

THAT SOUNDS LIKE A GOOD IDEA!

I'VE NEVER KNOWN YOU TO BE KEEN TO ESCAPE BEFORE, GABOR.

Dicky explained that he planned to put the floodlights out of action, sabotage the Ultimate Weapon and use a lorry and truck from the vehicle park to escape.

THE EASIEST WAY TO SABOTAGE THE WEAPON WOULD BE TO DAMAGE THE REACTOR HALL, HERE.

YES, THAT WOULD SET THEIR WORK BACK YEARS. THERE'S ABOUT TWENTY TONS OF T.N.T. IN THE REACTOR HALL. IF THAT COULD BE SET OFF—

It was arranged that two scientists would go to the generating station and remove the light fuses. The rest were to go with Williams to the reactor hall.

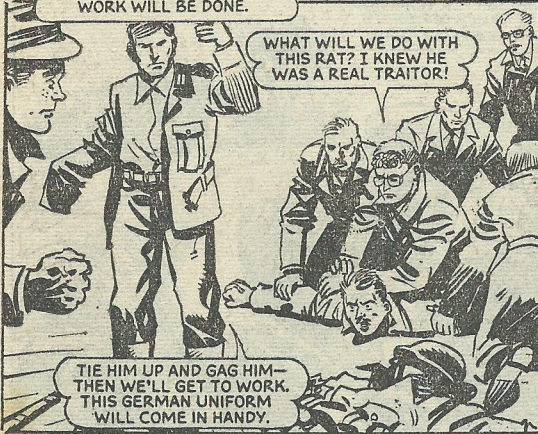

SOLDIERS! IN HERE QUICKLY—WE NEED YOUR HELP!

IT IS A TRICK, THEY ARE ALL TRYING TO ESCAPE!

SOME OF US WILL CARRY PETROL FROM THE VEHICLE PARK TO THE REACTOR HALL. WE'LL SET THE PETROL ALIGHT, THE T.N.T. WILL EXPLODE—UP WILL GO THE REACTOR HALL AND ALL OUR WORK WILL BE DONE.

WHAT WILL WE DO WITH THIS RAT? I KNEW HE WAS A REAL TRAITOR!

TIE HIM UP AND GAG HIM—THEN WE'LL GET TO WORK. THIS GERMAN UNIFORM WILL COME IN HANDY.

REMEMBER ONE SHOT IS THE SIGNAL TO MEET AT THE VEHICLE PARK.

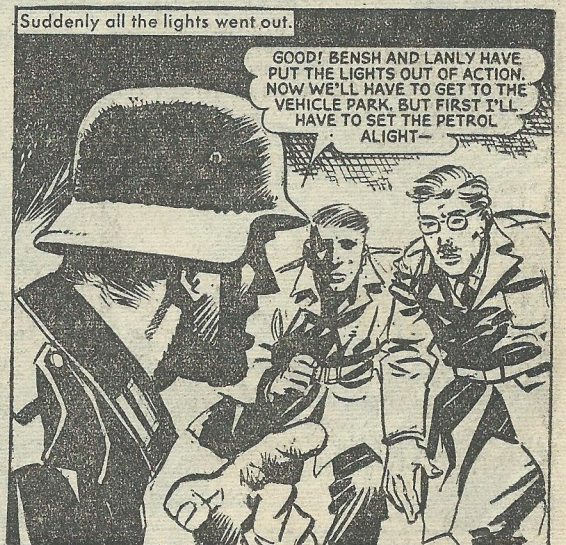

Five minutes later.

IT'S GABOR—HE'S ESCAPED! WE'RE DONE FOR NOW!

COME ON, HURRY UP! THE GERMANS WILL BE HERE IN A MINUTE.

Suddenly all the lights went out.

GOOD! BENSCH AND LANLY HAVE PUT THE LIGHTS OUT OF ACTION. NOW WE'LL HAVE TO GET TO THE VEHICLE PARK. BUT FIRST I'LL HAVE TO SET THE PETROL ALIGHT—
