

# STAR SEEKERS

BRACE FOR EVASION! A VESSEL IS APPROACHING ON COLLISION COURSE.

ANOTHER SHIP OUT HERE! IT ISN'T POSSIBLE.

FARTHEST SPACE — THE YEAR 3091! SCOUT WARPERS THREE WAS EXPLORING A BINARY STAR SYSTEM, LIGHT YEARS AHEAD OF THE EXODUS FLEET LEAVING THE DYING EARTH, WHEN . . .

The Warper's crew were Ensign Hod Sholto, Android AD964 and Vak Kline, the ship controller.

AN INTELLIGENT ALIEN LIFE-FORM AND LOOK AT THE SIZE OF THAT SHIP!

EVASION SUCCESSFUL, BUT HE'S TURNING AFTER US.

HEY! WHAT'S ROCKING THE BOAT?

HE'S GOT US IN SOME KIND OF TRACTION.

HIT THE BUTTON, KLINE. GIVE US FULL SUBLIGHT POWER.

THAT JOKER'S HITTING US WITH SOMETHING.

NO USE, GRANDSON. TOP ION-DRIVE ISN'T BREAKING US FREE. AHUH! TRANSMISSION INCOMING FROM HIM.

HE WANTS TO TALK. LET'S SEE WHAT HE'S GOT TO SAY!

GREETINGS, ALIEN BEINGS. YOU ARE ADVISED TO CEASE RESISTING OUR PURPOSE OF SCIENTIFIC INVESTIGATION OF YOUR PERSONS AND CRAFT.

MISTER, I AM ADVISING YOU TO LET GO OF MY SHIP BEFORE I OPEN FIRE ON YOU.
