

Introduction

Welcome to this year's Green Lion Comics special with a chilly, winter feel to it. This smaller page count special (I was short on time this past year), will probably be the last with a seasonal theme. I want to try something else next year.

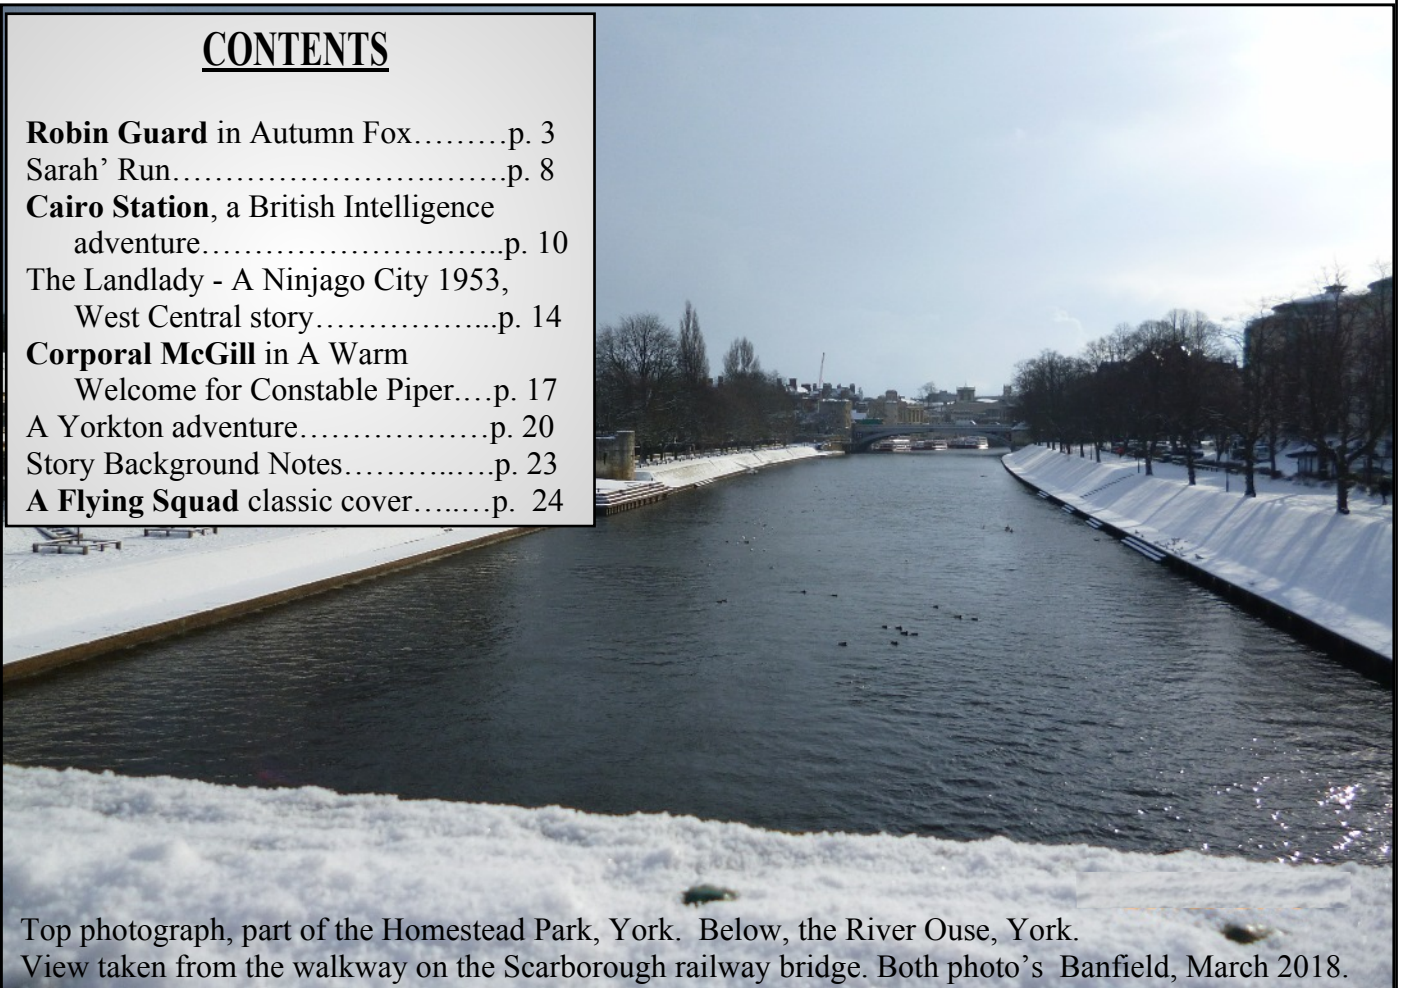

The all brand new stories feature another adventure for **Robin Guard**, a cautionary tale from **Ninjago City, West Central**, a British Intelligence Utility Man story featuring Albert Copperwaite, and other stories. I hope you enjoy this seasonal special.
